Organization of the Denver and Rio Grande.

DENVER, July 14.—This afternoon Judge Hallett, in the United States Court, affirmed the sale of the Denver and Rio Grande Railroad as made last Monday, after which articles were immediately filed with the Secretary of State incorporating the company under the name of the Denver and Rio Grande Railroad Company. Capital, \$73,500,000, of which \$45,000,000 is common stock and the remaining \$28,500,000 preferred stock. This evening, at a meeting of the stockholders, George Coppel, Adolph Engler, R. B. Minton, George T. Wilson, John J. Hodiger, John L. Welch, Theodore H. A. Tromp, W. S. Jackson and D. H. Moffat were chosen Directors. After adjourning the Directors met and elected W. S. Jackson President, George Coppel Vice President, J. W. Gilluly Treasurer and William Wagefer Secretary.

Colonel William H. Gilder, who intended to leave New York and join the whaling schooner Eva at New London, Conn., and proceed on her to the coast of Greenland, and afterward undertake to find the North Pole, did not leave New York, as he was detained on a charge of stealing a \$1,000 bond of the Manhattan Elevated Railway Company. The notorious Dolly Adams, sometimes called the "Water Queen," was the complainant. She said that she gave Gilder the bond in February, 1883, asking him at the same time to find out if it was good or not, and had since been unable to get possession of it.

A dispatch from Lowell, Mass., says that General Butler is preparing to enter the race this Fall for Congress. A few Democrats will oppose Butler's nomination, but they will be swept aside by Butler's shouters, who infest the district in large numbers. Butler has aged rapidly within three or four years. His hearing and sight are going fast. His step is halting and uncertain, and he finds the sturdy arm of his negro servant necessary in getting in and out of his carriage.

There is an understanding in the Senate that when the River and Harbor bill shall have been perfected by items, a motion will be offered to make a horizontal reduction, bringing the aggregate appropriation to a point somewhat below that of the House bill. This will have the effect of putting every item into a conference. The proposed reduction will probably be fixed at the rate of 20 or 40 per cent.

In writing a letter to her publisher preparatory to assuming her editorial duties Miss Rose Cleveland says: "I am taking some care to be absolutely certain of what I write in the first sentence with the people. I mean to address myself in this first to my countrywomen and my literary countrywomen, and make my talk very simple and earnest and sincere. I shall ignore great critics altogether."

The House Naval Affairs Committee Wednesday voted to report a bill providing for one double-bottom cruiser of 6,000 tons, two small torpedo boats and one cruiser of 4,000 tons. They will cost \$2,500,000. The bill also provides for the completion of the monitors at a cost of \$1,000,000.

The magnitude of the baseball industry may be judged from the fact that 100 skins of 1,000 horses and 10,000 sheep are used every year for covering balls in New York alone. One horsehide will furnish material for twelve dozen balls, and one sheepskin for three dozen.

The House has passed the surplus resolution by a vote of 209 to 65. The resolution provides that whenever the surplus in the Treasury exceeds \$100,000,000 it shall at once be applied to clearing off the interest-bearing indebtedness of the United States.

LET US HAVE PEACE.

Carson Index.

Every well-disposed person regrets the ugly phase which the anti-Chinese agitation has taken in this city. In a small place like Carson, where all its inhabitants necessarily come within closer relationship than they would in a more populous city, and where the peace, prosperity and happiness of all depend in a great measure upon the unification of the whole people, everything tending to misunderstandings, quarrels, and altercations, should be carefully avoided. Unhappily, this movement, which at the time of its inauguration met with almost universal approval, has grown to a question of bitterest discussion, and at this instant threatens the social tranquility and business welfare of the community. In the interest of the public good, and in the name of peace, the Index earnestly calls for a truce in the angry debate, and invites the contending factions to listen to the dictates of reason. The broad proposition that the Chinese are a disturbing element, and that their presence here should be discontinued, (which is denied by none), has been lost sight of and the discussion narrowed down to personal abuse. It is time for this to stop. Both sides have doubtless been to blame, because both have without proper reflection accepted as true, the garbled and exaggerated statements of graceless tale-bearers, who have wickedly biased themselves in carrying false reports from one to the other. Surely, if our boasted Americanism amounts to anything this issue can be amicably adjusted. It ought to be adjusted, and that promptly, before the increasing animosity is carried to too high a pitch. He who claims to have the public weal at heart, and yet who refuses to act with the magnanimity of a patriot in this matter, as in all important matters, has no valid claim to sincerity, and deserves not well of his country. More serious complications than the one in Ormsby county, in the tumultuous history of the world have been happily settled, through the means of dispassionate conference and mutual concessions. It remains to be seen whether our people are capable of rising to the importance of the situation, or whether they will continue to be urged on by their own blinding passions, to domestic turmoil, and unpleasant, as well as unprofitable, business disintegration. The Index hopes they will choose the better part. Let us have peace.

Street Car Strikes in San Francisco.

SAN FRANCISCO, July 14.—To-night a car on the North Beach and Mission Railway missed the switch on Fourth street, opposite the car shed, and collided with a car coming in the opposite direction. In a few moments a large crowd of several hundred persons gathered, largely composed of hoodlums. The crowd amused itself by hooting, yelling and throwing stones at the cars. It was then decided to stop the running of all cars on the road before more serious damage could be done. As the cars came along they were ordered in for the night. Each one was greeted with a chorus of hoots and yells, and volleys of stones, rotten eggs, potatoes, etc. Were it not for the presence of a large force of police officers, serious trouble would have taken place. Of the sixteen cars at work on the road, all had their windows more or less broken. Almost all the conductors and many passengers were hit by the stones, but no serious injuries have been reported. The Superintendent of the road said the cars would be started at the regular time to-morrow morning. They had all the men that were needed, and could get many more if necessary. After all the cars had been safely housed the crowd gradually dispersed, and the vicinity of the car-house resumed its normal aspect.

PURCHASE OF MUTILATED COIN.—The Treasury Department has issued a circular instructing Superintendents of the Mints at San Francisco, Philadelphia and New Orleans to pay for mutilated and uncurrent United States coin, when presented in sums of \$3 and upward, at the price fixed from time to time by the Treasury bureau to be paid for silver contained in and parted from gold deposits—that is, reckoned per Troy ounce at .300 fine. Payments will thus be made for deposits of mutilated coin at the Mint rates for standard silver current at the date on which such deposits are received.

Judge Lawler has held John H. Harney, the former Grand Secretary of the Knights of Pythias, of California in, \$2,000 bonds, to answer a charge of embezzling \$100 from the funds of the organization.

THE DEVELOPMENT OF NEVADA.

Carson Appeal, 8th.

In the local columns is published an interview with Commissioner Haveron who represented the State at New Orleans. There is much in what he says for the citizens of this State to ponder over. Nevada has the soil, climate and resources to make her one of the richest States of her size in the Union.

All we need is enterprise and energy and the victory is ours. For some years past we have been retrograding, because the people of the country have been shiftless and inactive. Hundreds of men sit round on beer kegs, play whiskey cinch all the afternoon and tell you that times are not what they used to be.

These men came to the State years ago when \$20 pieces were as thick as tickle grass, and now that the business of the country has settled down upon a more business basis and times have lost the zest of speculation, they refuse to stir hand or foot, but sit with folded hands to wait until someone else uncovers a bonanza.

These miserable wrecks lie idle between the campaigns, run in debt, swill whisky and croak. It is certain that a new set must take the lead and develop the country. There should be an Immigration Society in Nevada to advertise its resources and the State should give its aid to every practical plan to build up the State and increase the value of taxable property.

We have been asleep long enough; we must wake up and do something. Every county should pledge its legislative delegates to vote for bills which advance Nevada's prosperity and not fool away their time in petty wrangles over county seats, land slides and amendments of the salary laws. Mr. Haveron has done a great work for Nevada, and his example should cause more men to sit down less and rustle more.

Insane Asylum Improvements.

The Nevada Insane Asylum contains 160 patients, and under the able administration of Supt. Bishop is making a record equal to any similar institution in the United States. The visitor is particularly impressed by the scrupulous cleanliness observable in every department. The discipline is firm but gentle, and it is a source of gratification to realize the fact that these poor unfortunates are provided for with much better care than they could possibly be, even at home. Great advancement has been made in the management of insane asylums during the past few years, and in all essential particulars Nevada's asylum is fully up with the age. The patients are treated as patients, that is, as sick persons; not as wild animals, fit only for the cage, the straight-jacket and the lash. Such was once the method, now happily fallen into disuse. Each passing season makes more apparent the wisdom of the Legislature which provided for the State building its own asylum. The agricultural and horticultural products of this institution are quite extensive, and the possibilities in this way are constantly increasing. The view down the river is most delightful. It is already a place in which the people of the State have a right to feel a pride, and before many years, folks will want to go there for picnics.—Carson Index.

Race Track Philosophy.

New York Judge.

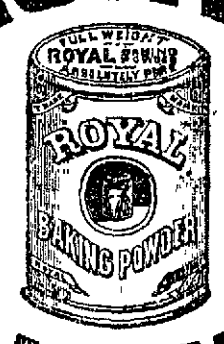

The best horse doesn't always win. Look out for the horse in bandages. The black "tout" would burst a bank. The knowing ones never win anything. Some old horses can run fast on three legs. A short horse is harder to catch than a flea. The backer is on the wrong side of the horse. The horse the starter has his money on gets a good lead. The man who hesitates is sure to lose. The careful better loses the most money. The man who strikes a winner wants to go home. A gambler never knows when he has made enough. The gambler is never a friend of dying poor as long as he can live rich. The first impression picks out the most winners. The favorite pays the least, but he gets there oftener. According to his backers, the horse that falls would surely have won the race. A dollar on the winner is better than five on the loser.

LICK OBSERVATORY.—In regard to the Lick Observatory it is stated that it is expected that the great dome and telescope will be completed some time next Summer, and the whole immense establishment be ready to turn over to the University of California in a little over a year from this date. Of the original \$700,000 devised by James Lick for the construction of the telescope and observatory, it is thought that about \$500,000 will have been expended, and the remaining \$200,000 will be turned over to the University Regents as a partial endowment for its maintenance. This amount will be insufficient for the purpose, as the salaries of a score of competent astronomers and their assistants and the other expenses will amount to at least \$20,000 per year. A considerable deficit will, therefore, have to be provided by the State or by private munificence.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Feb. 21-cwt-1y

THE GRAPE CURE. SAL-MUSCATELLE IN AMERICA Without the Expense of an European Journey!

The crystallized salts, as obtained in a pure state from grapes and choice fruit, in a portable, palatable, simple form, are now presented to the public of America as the grandest solvent of impure blood, corrector of the liver and regulator of the bowels—the natural promoter of

HEALTH AND LONGEVITY.

Eminent physicians claim this achievement of new era in the allied science of medicine, as it furnishes the blood with its natural salines that are lost or eliminated every day.

Sal-Muscetelle A POSITIVE NATURAL SICK HEADACHE and DYSPEPSIA CURE.

Sal-Muscetelle is Nature's own product. It supplies to the system the want of sound, ripe grapes and fruit; it is the simplest and best preventative and cure for all functional derangements of the liver and its kindred ailments; prevents the absorption of malarial diseases—fevers of all kinds; counteracts the effects of bad air, poor drainage and impure water; a powerful oxydizer of the blood; a natural specific for all skin eruptions, sick headaches, biliousness, nervousness, mental depression, and will remove the effects of accidental indigestion from excessive eating and drinking. Have it in your home and on your travels. It is a specific for the lagged, weary or worn-out. Prepared by the

London Sal-Muscetelle Co. LONDON, ENGLAND. Beware of imitations. The genuine in "blue wrappers only."

The Sells Brother's advertising car for their great circus and menagerie came in on the overland last night from the East and will decorate our town immediately.

During the month of July assessments aggregating \$433,400 will become delinquent on mining stock. The mines of Nevada want \$235,900, California \$114,500, Arizona \$30,000 and Mexico \$3,000.

A prominent resident of Virginia informs the Chronicle that Mr. John W. Mackay will assume charge of the northern mines on his return to the Comstock to allow Superintendent Patton a two-months' vacation.

The State Fair posters and banners for the coming fair are as fine and attractive as any circus or theatrical posters ever hung up in our town, and will give a good impression to strangers of our State and Fair.

One of the new parlor and observation cars to run on the local passenger train, came in for the first time last evening and is quite an addition. The charges to ride in it over the mountains will be extra.

The Lyon County Times says Omaha bluestone is being laid down in Dayton for \$106 per ton, while the article manufactured there sells for \$140 per ton. Millmen make a saving of \$34 a ton by buying away from home.

The Marysville Daily Appeal changed hands again Tuesday morning. F. W. Johnson, formerly Deputy Postmaster, is now proprietor. A. S. Smith, the veteran editor of the paper, still presides over the editorial desk.

The Truckee steam laundry was bought at Sheriff's sale last week, by Lewison and Schaffer. They will either sell or rent the institution. Should they not succeed in doing this, they will ship the machinery below and turn the building into a lodging house.

PATRONIZE THE INDUSTRY.—Don't forget that the steam laundry is in full blast, and that the single men should by all means patronize it; family washing a specialty. Leave orders at the laundry or by postal card.

CONTEMPLATED IMPROVEMENTS.—The Truckee Republican says: Substantial improvements are contemplated in the vicinity of Donner Lake. A year ago, Creed Haymond, the railroad lawyer, purchased a site for a country residence on the shores of the lake, and expected this Summer to erect a fine house. He has been too busy this season to attend to the matter, but is expected up soon to put his plans into operation. It is also said that Hoberst & Marlette intend to improve that beautiful spot at the head of the lake, known as Donner Park. The underbrush will be cleared away, and fine picnic grounds made with swings, walks and rustic seats. It is also thought likely that next season they will put up a large hotel on the grounds. It certainly ought to make a favorite resort, as the locality is one of the most picturesque in the mountains.

CALEDONIA CLUB PICNIC.—This picnic will take place in Treadway's Park at Carson City, on Saturday, August 7, 1886. In addition to 17 costly and elegant prizes to be awarded to successful contestants in the various athletic games, the sum of \$300 in gold coin and a splendid gold medal will be presented to the team making the best score at target shooting. The contest is open to all rifle teams in the State. The music for the occasion will be furnished by the National Guard Band. Every member of the club will constitute a committee to look out for the safety of participants on the trip to and from the park. These picnics are always very popular and generally attract quite a crowd from Reno and vicinity.

MINING CLAIM DEVELOPERS.—Says an exchange: It takes three classes of men to develop a mining camp. First, the prospector who finds the ledge but rarely does anything more than assessment work, and usually avoids that if he can; next the small mining capitalist, who "bonds" the mine or takes a share of it for development work, and expends two or three thousand dollars on a chance of making several hundred thousand dollars; lastly, the San Francisco, or Denver, or Chicago, or New York, or London operator, who will pay a million dollars for a property which can be made to pay dividends on that sum, but who will not even send his experts to look at an undeveloped property.

THOSE PARLOR CARS.—The Call says: Two very handsome new parlor cars of the latest designs have recently been received by the Southern Pacific Company. They are provided with the "observation ends," consisting of a raised platform at the rear end of the cars, provided with chairs from which the passengers can see the country through which they are traveling without putting their heads out of the windows. The two cars, which are magnificently fitted up, have been named the San Antonio and the W. T. Pierce, and will make daylight trips over the Sierra Nevada Mountains from San Francisco to Reno and return, leaving the city at 7:30 A. M. and arriving at Reno, at 8:40 P. M.

A SPRINGFIELD RIFLE BURSTS.—The Austin Reville gives the following: At the target shooting yesterday, while H. C. Thomas was riddling the bullseye, his Springfield rifle exploded with a noise like a cannon. The breech was badly shattered. The flying pieces struck him under the eye and on the hand, cutting bad gashes, but not inflicting any very serious injuries. This is the first instance we ever heard of a Springfield rifle exploding.

EASTERN WEATHER.—The weather in this State seems to be getting more like that of the Eastern States. We are now having a hot spell during the morning and heavy thunder showers every evening accompanied by strong gusts of wind.

HOSE MEETING.—All members of Fearless Hose Company, No. 1, are requested to meet at their engine house this evening, July 16, 1886, for practice. By order, J. T. TOMPSON, Foreman. L. J. COHN, Secretary.

DEPARTURE.—This afternoon Prof. McDonald goes to Carson. Until 2 o'clock he will give phrenological examinations at the ante-room of the Nevada Theater. This will be the last opportunity of interviewing him.

ONE SLIGHT ADVANTAGE.—In one respect, says the Carson Index, the people of Reno have an advantage over the people of Carson—they have the great San Francisco morning dailies delivered at their doors on the evening of the day of publication. This is made possible by the new daylight train. It takes one day longer to get a reply to a letter sent from Carson to San Francisco, than it does from Reno to San Francisco. The advantages which Carson enjoys over Reno are too numerous to mention, and indeed to do so would be a work of supererogation.

THE TRI-CYCLES A FAILURE.—The tri-cycle constructed in San Francisco to carry the mail between Eureka and Palisade was shipped to its destination and proved a failure, it being found impossible to propel it up the steep grades by muscular power at a rapid rate of speed. The manufacturers offered to fit it with an engine run by coal oil fuel, but the management of the road refused to let it run over their track. The mail will probably be carried by buckboard as heretofore on the days when the trains are not running.

CAMPING PARTY.—Drewster Coffin, accompanied by his wife and two younger brothers and Miss Emma Gibbs, left for the mountains yesterday afternoon fully equipped with camping out utensils and everything necessary to make a short rustication around Donner, Tahoe and the other cool and beautiful resorts, comfortable. This is about the first of the many parties that will visit the cooler elevations during the hot months.

INYO MARBLE STATUARY.—Morton Edwards, a sculptor has cut a bust of Alex. D. Sharon from Inyo county marble which is the first attempt ever made to use California marble in sculpture. He has been awarded the contract of a statue of the Savior on the Cross, seven and a half feet in height, for the new cathedral on Van Ness avenue, San Francisco. So says the Walker Lake Bulletin.

\$500 REWARD.—At a special meeting of the Board of County Commissioners of Eureka county, it appeared to their satisfaction that there is reason to believe that John Comata, the missing Italian, has been murdered, it was ordered that a reward of \$500 be offered for the arrest and safe delivery of the murderer or murderers of the said Comata to the proper officers of the county.

CARD OF THANKS.—The relatives of the late Mrs. Giles, of Pyramid desire to tender their sincere thanks to those friends who showed such unexampled kindness during her long illness. They are assured that those deeds of benevolence will be long held in grateful remembrance.
